Senior Cat Package (9 years +)

Our senior clinics give you a clearer picture of your cat's health and allow us to detect any age associated health conditions early.

We can recommend an individual health plan tailored to your cat's needs, giving you peace of mind that your cat is as happy and healthy as possible throughout their senior years.

- ✓ Proactive health screening
- ✓ Gold standard care
- ✓ Oldies are Goldies!
- ✓ Saving over **£150!**

Our Senior Cat package includes:

- **Calm cat friendly visit** and daytime stay in our quiet cat ward.
- **Comprehensive health check** by a vet including a musculoskeletal and mobility check.
- **Blood and urine analysis** to check for common conditions such as kidney disease, liver disease, diabetes and thyroid dysfunction. We offer a standard or advanced package for blood and urine analysis (see right).
- **Blood pressure measurement.**
- **Weight and body condition check.**
- **An individual health plan tailored to your cat's needs.** All results and recommendations for any treatment or lifestyle changes are discussed during a follow up telephone or in clinic vet consultation at a time convenient for you.
- **Talk to the team today** to find out more information.

£180

PER PET*

Standard senior package

includes a blood and urine screen to check the liver and kidneys, glucose levels, thyroid function and red blood cell count.

£240

PER PET*

Advanced senior package

includes more in-depth blood and urine analysis to give us even more information about your cat's health. Blood analysis includes a comprehensive organ screen, glucose levels, electrolytes, protein levels, thyroid function, full haematology (red and white blood cell counts) and detailed urinalysis.

* See website for full terms and conditions.
